Re: Van Waters & Rogers Inc.
Boise, Idaho
Site Investigation

Dear Ms. Lopez:

Enclosed are copies of the three consent orders Van Waters & Rogers Inc. entered into with the State of Idaho and the Interim Remedial Measures Work Plan that provides for installation and operation of a ground water extraction and treatment system in the vicinity of N. Five Mile Road in Boise, Idaho. The remaining documents relating to VW&R's Boise project that have been published since August 1993 as well as the 1991 soil analytical data from the vicinity of the former above ground storage tank are being forwarded by our consultant, Harding Lawson Associates.

Please call me if you have any questions. Alternatively, a message can be left for me at 1-800/284-6264, extension 8455.

Sincerely,

Michael V. Gaudette
Senior Project Manager
